

**COVID-19 RESEARCH STUDY
ALL ELIGIBLE PATIENTS ARE WELCOME TO TAKE PART**

The New York Center for Travel and Tropical Medicine is conducting a research study to examine clinical presentation of SARS-CoV-2 in various populations across New York City

What makes you eligible?

- Age 12 years or older
- Symptoms suggestive of infection with SARS-CoV-2 with or without known exposure to a person with COVID-19
- No symptoms but you were recently exposed to a person who has COVID-19
- Positive test result showing presence of SARS-CoV-2 no older than 3 days
- You reside or work in New York City
- You are willing to provide stool and blood samples for future analysis
- You agree to be contacted for follow-up

You do not need to be tested for COVID-19 in our clinic, but you must show proof of a positive result for SARS-CoV-2 no older than 3 days if you would like to take part in the study

Study process:

- Request your appointment online through our website
- Complete your forms online and make sure to fill out all applicable sections of the form
- Come in for enrollment
- Provide all necessary samples
- Make sure to follow up

What is in it for you?

Our study participants will not receive a monetary incentive. However, as a part of the study, we will run a full respiratory panel on your sample free of charge. Results of this panel will be made available to you on our patient portal.
